Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6, 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Magarill (6,461,000).

Magarill discloses a projection arrangement comprising:

a light source (33) a light valve (35);

a projection lens (39);

a prism (17) for passing light from the source to the light valve and reflecting modulated light to the light valve by total internal reflection.

As best as the terms "straight pillar prism and triangular pillar prism are defined in the specification, additional prism (15) is interpreted as forming a system in combination with prism (17) or conversely as an auxiliary prism.

Allowable Subject Matter

3. Claims 11, 12 are allowed.

Art Unit: 2851

4. Claims 7, 9 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 11-12. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Response to Arguments

5. Applicant's arguments filed 1/15/04 have been fully considered but they are not persuasive.

According to Webster's Ninth New Collegiate Dictionary, "bevel" is defined as "the angle that one surface makes with another when they are not at right angles." As such the prisms of Magarill are "beveled".

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will

Art Unit: 2851

expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
